LOWELL DECL. EX. 5

Exhibit 155

Translator's Notes for Translation of Bates 55-62:

Though the source material was formatted in columns, table format was used, in the translation, in order to facilitate readability in English, and in order to preserve page-to-page matching of source to translation content.

In some of the source entries appearing under "Administration Office," as many as 1.5 words were truncated for the entries ultimately translated as "General HQ/Northern Governorates" (truncated word: shamal or shamali/Northern), and Martyrs and Prisoners-West Bank (truncated word(s): dhiffa or dhiffa gharbiya/ Bank or West Bank). Since there was enough text present to confirm "shamal" or "shamali" (Northern), and since "dhiffa" is commonly used by itself, without "gharbiya," to denote the West Bank (and most of the word "dhiffa" was universally present), the truncated terms could reliably be translated, respectively, as "Northern" and "West Bank."

In the column captioned "Social Initials" that recurs throughout these pages, the abbreviations "A/0," "M/0," and "M" appear repeatedly. "A/0" is the abbreviation for "a'zab (single)/no children," and as "M" is the abbreviation for "mutazawij (married)," "M/0" is intended to represent a married individual who has no children.
